

# Tiverton in full Colour

09/10/10

**As part of community education plan, Tiverton High School have recently purchased a comprehensive LED lighting system for their touring productions.**

For this project the school approached **bright\*** for a professional grade portable lighting system that could be shared between partner primary schools and the community. It had to achieve the key points of portability, simplicity in assembly and operation, robust and suitability for a wide range of applications.

**bright\*** recommended a newly introduced four head lighting package by Visage which has been designed around the 10mm LED light source. Having supplied a large amount of LED equipment to the school for their main hall installation we felt this would best complement their existing equipment.

“Tiverton High School has embraced LED technology” comments Project Manager Joe Rockett, “we have supplied a large amount of equipment both on a sales and rental basis and their productions have really benefitted from its flexibility and ability to deliver very and bright colours which can be changed remotely”.

Each system comprises of four compact LED luminaires permanently wired to a lighting bar which contains the control equipment. The systems and their stands fold down into very compact and neat carry cases making them extremely easy to transport. Each set of four also contains its own independent controller, but for this system **bright\*** also supplied a Zero 88 Jester 24/48 control desk for DMX control of the complete system.

“We are delighted with the product and with the service that we have received from **bright\***. Having received training from their technician we are confident that our new portable rig will be much used and appreciated by all partners in our learning community” comments Jon Sowden of the school’s drama department.

**bright\*** offers a complete range of hire and sales services to schools, colleges, universities and educational venues. Our contemporary inventory and extensive product range means we can supply the right product at the right budget! We also offer flexible hire periods to cope with the part time nature of educational theatre, and special discounted rates in order to make our services accessible to the widest audience.
