

New equipment for Brewhouse Theatre

25/03/2010

Somerset's premier Theatre and Arts Centre chooses bright* for the supply of lighting, sound and AV equipment as part of a programme of development and investment.

bright* supplied a range of lighting equipment including ETC Source Four Zoom Profile Luminares and Selecon Rama Fresnels, new audio equipment including Sennheiser's latest range of radio microphone systems, G3 EW300 lapel and lavelier options, plus on the audio visual side a new Sanyo video projector to support their busy events and exhibition programme.

The purchases are part of an investment programme to offer improved facilities for the busy programme of in-house, local community and national touring productions in both the main-house and new studio facility. The Brewhouse Theatre is based in the county town of Taunton and offers a wide range of community facilities, outreach and educational opportunities.

Managing Director Jason Larcombe commented; "**bright*** are very pleased to be chosen as supplier to the Brewhouse Theatre. As a local supplier we work alongside the theatre on day to day hires and sales, and support productions where possible. The Brewhouse as a local theatre is very close to our hearts because many of our own staff started off their days in the venue. We look forward to continuing our service to the theatre and offering a competitive service for the latest theatrical hire and sales equipment".

bright* is pleased to serve theatres and venues in Somerset and the South West including Strode Theatre, Regal Theatre, Tacchi Morris, Chard Guildhall, Tiverton New Hall to name a few.

We offer special sales services to venues including a 'trade ratecard scheme' to provide preferential pricing of consumables and day to day sales. The scheme sets competitive pricing for regular purchases and rewards quantity and repeat orders, plus same and next day delivery.

For more information on our range of services for theatres and venues including professional lighting, sound, staging and audio visual products for both hire and sales please contact our team on 01823 339908, info@brightbluelight.com.
