

## PRESS RELEASE:

# SPA Training for bright\*

Released: 25/03/2010

**bright\* are pleased to announce the completion of a programme of Health and Safety training for all staff members, part of an ongoing extensive programme of skills training in order to improve and expand the service offered to our clients.**

Operated by the Safety Pass Alliance, the course delivers basic health and safety training in a way that is tailored to work, skills and procedures in the events and entertainment technical industries. It is thus perfect for both warehouse and operational staff, and those that go out on site and into our clients' premises.

"We are proud to be one of the first companies in the region to fully adopt the SPA courses, which recognises our commitment to safety and to the professional training of our staff", comments Managing Director Jason Larcombe. "The course offers a core introduction to the topic, and is delivered in a way that makes it easy to relate to the activities in the workplace and on site".

The SPA course covers the following major topics:

- Planning and organising for safety
- Workplace safety
- Plant and machinery
- Health
- Procedures
- The Environment

It is particularly suited to technical staff who work on sites such as in schools, theatres etc. The training helps to identify and control the risks, undertake risk assessments and work with our clients to insure a high standard of conduct.

Trainees sit a 1 day assessment and are given a photo ID which should be carried with them at all times. The course is refreshed after 5 years.

We are currently offering the SPA training to our regular subcontractors at a subsidised rate, and it is our aim to roll this across all contract staff as a minimum requirement when working with us. "We feel that subcontractors will embrace the idea of formal health and safety training and are pleased as a company to be setting a standard and high expectations for personnel who wish to work with us on our projects", comments Jason Larcombe.

If you are a subcontractor, individual or company and would like to receive this training please contact a member of our Project Management team for more information.

The SPA Passport Scheme is run by the Safety Passport Alliance (SPA) Ltd. More information on their services can be found at:
